D717 Desk Telephone

High-resolution color display and self-labeling keys

The D717 SIP Color Deskset features an intuitive design with advanced technology and connectivity. Three self-labeling programmable feature keys sit next to a 2.8-inch, 320 x 240 pixel color LCD display. Opus codec support gives you the freedom to enjoy crystal-clear audio or high-quality narrowband audio, depending on your network conditions. Zero touch provisioning eliminates the need for manual labor typically involved with installation. Power over Ethernet (PoE) support and dual Ethernet ports makes the system cost-effective and easy to use. The USB port allows additional connectivity, including up to three D7 or D7C expansion modules for increased visibility and one-button options. The system features multiple configurations, including three programmable feature keys, four soft keys and 14 dedicated feature keys. You'll feel safe with powerful security features like VPN support.

Quick summary

- High-resolution color display
- 3 configurable self-labeling multicolor LED keys
- Wideband audio
- USB port
- Elegant design
- 3-year standard warranty

D735 Desk Telephone

The Snom D735 SIP Color Deskset features an intuitive design with advanced technology and connectivity. Eight self-labeling programmable feature keys surround a 2.8-inch, 320 x 240 pixel color LCD display. Scroll between four pages of keys with a dedicated button. A proximity sensor reacts as your hand gets close to the phone to dynamically adjust the display. Opus codec support gives you the freedom to enjoy crystal-clear audio or high-quality narrowband audio, depending on your network conditions. Zero touch provisioning eliminates the need for manual labor typically involved with installation. Power over Ethernet (PoE) support and dual Ethernet ports makes the system cost-effective and easy to use. The USB port allows additional connectivity, including up to three D7 or D7C expansion modules for increased visibility and one-button options. The system features multiple configurations, including eight programmable feature keys, four soft keys and 15 dedicated feature keys. You'll feel safe with powerful security features like VPN support.

Quick summary

- High-resolution color display
- Motion sensor
- 8 (32) configurable self-labeling multicolor LED keys
- USB port
- Elegant design
- 3-year standard warranty

M325 DECT Bundle

Up to 20 handsets on a single cell DECT base station

This single cell DECT package includes the M300 base station and one M25 handset, forming a uniquely powerful and expansive mobile telephony solution. This package can be extended with up to 20 additional Snom DECT handsets from the single M300 base station, and is ideal for creating mobile telephony in a small office environment.

With a range of up to 300 meters outdoors and approximately 50 meters indoors, the base station provides broad coverage, which can be extended by adding up to three M5 repeaters. This single cell DECT solution is easy to install and provision, and utilizes the same interface as Snom desk phones for a comfortable and familiar user experience.

Quick summary

- M300 base station and M25 handset package
- Up to 20 handsets
- Up to 5 parallel calls
- 75 hours standby and 7 hours talk time

M25 Office Handset

A DECT handset for professional business use

The M25 DECT handset is a high-functioning device with an excellent price-performance ratio. Designed for professional business use, the handset relies on rechargeable AAA standard batteries that provide up to 75 hours standby and 7 hours talk time. Snom's cutting edge user interface is streamlined for speedy, intuitive navigation and ease of use. The handset can be deployed in both Snom DECT solutions with easy configuration, flexibility and scalability. **Quick summary**

- IP DECT handset
- TFT color display
- Up to 75 hours standby and 7 hours talktime
- Configurable signal LED
- Intuitive user interface
- 3.5 mm headset jack
